EVENTIDE.

BY JAMES T. FIELDS. This cottage door, this gentle gale, Hay-scented, whispering round, You path-side rose, that down the vale Breathes incense from the ground, Methicks should from the dullest glod nvite a thankful heart to God.

But Lord, the violet, bending low, Some better moved to praise : From us, what scant blessings flow, Bow voiceless close our days! ather, forgive us. and the flowers Shall lead in prayer the vesper hours.

FLORENCE NIGHTINGALE .- But by-and-by the drawing doors are thrown open, and the ambassadress enters, smiling a kind and gracious welcome. Behind her are her daughters: by her side a tall, fashionable, haughty beauty. I could not help thinking how beautiful she looked; but the next instant my eyes wandered from her cold unamiable face to a lady modestly standing on the opposite side of Lady Stratford. At first I thought she was a nun, from her black dress and close cap. She was not introduced, and yet Edmund and I looked at each other at the same mement to whisper, "It is Miss Nightingale?" Yes, it was Floronce Nightingale-greatest of all now in name and honor among women. I assure you I was glad not to be obliged to speak just then, for I felt quite dumb as I looked at her wasted figure and the short brown hair combed over her forehead like a child's, cut so when her life was despaired of from fever a short time ago. Her dress, as I have said, was black, made high to the throat, its only ornament being a large enamelled brooch, which looked to me like the colors of a regiment surrounded with a wreath of laurel, no doubt some grateful offering from our men. To hide the close white cap a little, she had tied a white crape handkerchief over the back of it, only allowing the border of the lace to be seen; and this gave the nun-like appearance which first struck me on her entering the room, otherwise Miss Nightingale is by no means striking in appearance. Only her plain black dress, quiet manner, and great renown, told so powerfully altogether in that assembly of brilliant dress and uniforms. She is very slight, rather above the middle height; her face is long and thin, but this may be from recent illness and great fatigue. She has a very prominent nose, slightly Roman; and small dark eyes; but her face does not give you at all the idea of great talent .- Hornsby's Stambout.

DERUVIAN SYRUP, OR PROTECTED SOLUTION OF PROTOXIDE OF IRON COMBINED.

Having successfully passed the ordeal to which new discoveries in the Materia Medica are subjected, must now be received as an established medicine.

Its Efficacy in Curing DYSPEPSIA, Affections of the Liver, Dropsy, Neuralgia Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Boils, Scurvy, The Prostrating Effects of

Lead or Mercury, General Debility, And all diseases which require a Tonic and Altera tive medicine, is beyond question. The proofs of its efficacy are so numerous, so well authenticated, and of such peculiar

character, that sufferers cannot reasonably hesitate to receive the proffered aid. The Peruvian Syrup does not profess to be a cure all, but its range is extensive, because many diseases, apparently unlike are intimately related, and proceeding from one cause, may be cured by one remedy. The class of diseases for which the Syrup provides a cure, is precisely that which that so often baffled the highest order of medical skil. The facts are tangible, the witnesses accessible, and the safety and efficacy of the Syrup incontrovertible. ty and efficacy of the Syrup incontrovertible.

Those who may wish for an opinion from disinterested persons respecting the character of the Syrup cannot fail to be satisfied with the following among numerous testimonials in the hands of the Agents. The signatures are those of gentlemen well known in the community, and of the highest respectability.

CARD. The undersigned having experienced the benefi-cial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public. From our own experience, as well as from the tes-timony of others, whose intelligence and integrity timony of others, whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspepsia, Liver Complaint, Dropsy, Neuraigia, &c. Indeed its effects would be incredible, but from the high character of those who have witnessed them, and have volunteered their testimony, as we do ours, to its estorative power.

Cathartic Pills. The sciences of Chemistry and most to produce this best, most perfeet purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take and powerful to cure. Their pene testing properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humours which breed distemper, stimulate singgish or disordered organs into their natural ac-tion, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but also formidable and dangerous diseases which have battled human skill. While they produce powerful effects they are at the same time, in diminished dozes, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of un-truth. Many eminent elergymen and physicians have lent their names to certify to the public the rehability of my remedies, while others have sent me the assurance of their conviction that my Prepara-tions contribute immensely to the relief of my afflic-

WHISH NEWSPAPER OFFICE, 13 Nassau st... PROF. O. J. Wood: Dear Sir-Some month or six weeks ago, I received a bottle of your Hair Restortive and save it my wife, who concluded to try it on her hair, little thinking, at the time, that it would restore the gray hair to its original color but to her as well as my surprise, after a few weeks trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such s change of their hair. CHAS. CARDEW. change of their hair. NRW YORK, July 25, 1857. PROF. O. J. Wood: With confidence do I recom mend your hair Restorative as being the most effi-cacious article I ever saw. Since using your Hair

Restorative, my hair and whiskers, which were almost white, have gradually grown dark, and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

J. G. KILBY. CHICAGO, ILL., May 1 1857. PROF. WOOD: About two years ago my hair commenced falling of and turning gray. I was fast be-

coming bald, and had tried many remedies to no effect. I commenced using your Restorative in Jan uary last. A few applications fastened my bair firmly, it began to fit up, grow out, and turned back to its former color, (black) At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use toal The Restorative is put up in bottles of 3 sizes.

viz. Large, medium, and small; the small holds 1/2 a pint, and retails for \$1 per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for \$2 per bottle; the large holds a quart, forty per cent. more in proportion and retails for \$3.

TESTIMONIALS. NORFOLK, September 7, 1254.

Sir: The Spectacles you made for me suit me very well, and seem to have improved my sight more than any other I have lately tried. LITT. W. TAZEWELL. I have tried a pair of Spectables obtained from Mr.

Tobias, and find them of great assistance to my sight, and corresponding with his description of their focus. I recommend him as a skillful optician. HENRY A. WISE. PRTERSBURG, October 21, 1854. About five years ago, I obtained from Mr. Tobias, in Washington, a pair of Glasses for the spectacles which I used, and found them of great assistance to my decaying vision; and my opinion of him is, that he is skillful in the preparation of Glasses for eyes not too far gone to be benefitted by such aid.

Lynchburg, November 7,1854.
From an examination of Mr. Tobias' Glasses, and from his observations and remarks, am convinced that he is a skillful optician.

J. J. BLACKFORD, M. D. Linchburg, November 10, 1854. Mr. John Tobias, having furnished me with Glasses, by which I have been greatly aided, (my vision having suffered greatly from reading at night in my earlier life,) it affords me the highest pleasure it any that I consider him a skillful practical optician. and well prepared to aid those who may need professional services. WM. B. ROUZIE, Elder of the Methodist Conference.

WILMINGTON, N. C., June 27, 1854. MR. J. Tobias—Dear Sir: I am happy to say that the Speciacles which I obtained from you last week are entirely satisfactory. From an inequality in the visual range of my eyes, I have heretofore found great difficulty in getting glasses of the proper focal distances. It affords me pleasure to state, that by the aid of your optometer this difficulty has been happily obviated, so that the Glasses you furnished me are decidedly the best adapted to my eyes of any I have

Very respectfully yours, R. B. DRANE. Rector of St. James' Parish. Having been induced by a friend to visit the estab-ishment of Mr. Tobias for the purpose of trying his classes I was furnished with a pair slightly colored cation than any I have ever tried. My sight, originally very good, was injured by writing and reading at night, frequently to a very late hour: but with the aid of these glasses I can study almost as late as ever, and that too without the pain I have previously suffered.

Late Commissioneer Gen'l Land Office.

Dec. 11, 1855.

Dec. 11, 1855. I have used Mr. Tobias's Spectacles for three or four months, and take great pleasure in saying that I am much pleased with them. I have been much benefited by them. GEO. P. SCARBURGH. May 5th. 1856. I was recommended to Mr. John Tobias as a skilful

optician; and as I have eyes of remarkable peculiarity, I was gratified to find that Mr. Tobias seemed to comprehend them by inspection and some sight measurement, and he has made me a pair of Spectacles that suits me admirably. A. P. BUTLER. July 11, 1856.

WASHINGTON, Aug. 8, 1856. Having been for years under the necessity of havtwo sets of glasses—one for use in daylight, and one for lamp-light—I procured one set from Mr. Tobias which answered both purposes. I have used his for soveral months, and find them excellent.

EDWARD STUBBS,

Of Department of State.

Mr. J. Tobias. Sir: The pair of Spectacles you farnished me yesterday are particularly satisfactory to me. They are very decidedly the hest I possess, and I am the owner of eight or nine pairs, carefully and I am the owner of eight or nine pairs, carefully selected in different places and from opticians recommended to me on account of their professional standing in France, England, and the United States. I have been also pleased with your remarks and directions on the treatment of the eyes, for the pur-Professor of M. C., Louisville, Ky.

BROOKLYN ORTHOPARDIC INSTITUTION. After most careful examination of Mr. J. Tobias's Glasses, I am enabled to testify that their hardness, clearness, polishing, and exact optical shape render them particularly recommendable to those whose merely optical impairment of the eyes are in want of such auxiliaries. I consider, moreover, Mr. Tobias fully qualified to determine the focus of the eye, both by his optical knowledge and experience, and hy means of his optometer. In addition, I can further state that Mr. Tobias has supplied some of my patients with Glasses, to their and my satisfaction.

LEWIS BAUER, M. D.,

Physician and Surgeon, Berlin; Member of the
Royal College of Surgeons, England; Member
of the Medical Society of London, and of the

Pathological Society of New York; late Surgeon of the Royal Orthopaedic Institution of Manchester, England, and Surgeon of the B. O. Institution.

Norroll, Va. July 27, 1814.

In the experience of even two years, I have found great difficulty in obtaining Spectacles that were exactly adapted to the weakness of my sight. This inconvenience Mr. Tobias seems to have removed for the present by the substitution for me of better and more suitable Glasses. They are clear, chrystal-like and comfortable to my eyes. I would commend him to those who from age or other infirmity require ar-tificial aid in this way. J. J. SIMKINS, M. D. WILMINGTON, N. C., June 16, 1854.

Wilminston, N. C., June 16, 1854.

To persons who have had the sight of their eyes se impaired as to require the use of Glasses, I would recommend Mr. John Tobias as a suitable person from whom to obtain such Glasses as they may require, as he has suited me with a pair of Spectacles for a far and near sight. My sight has been impaired very much by a service of years in the Post Office Department, which berth required me to be on duty from 11 o'clock at night till after day, during which time I used but one light.

W. A. WALKER. DEPARTMENT OF INTERIOR, May 3, 1855.

From natural defects and the unequal range of my eyes, I have been compelled to use glasses for seve-ral years. I have tried different opticians without obtaining glasses perfectly fitted to my eyes. Four months since Mr. Tobias made two pairs especially for me, which I have found to serve me perfectly. By the use of his optometer he is enabled to adapt glasses most minutely to the eye. I most to adapt it is a most minutely to the eye. I most cheerfully recommend Mr. Tobias to all having occasion to use glasses, and bear my testimony as to his skill as an optician.
